Simulation Program
Operating Policy and Procedure Manual

SIM OP: 90.290 Use of Meat Products and Animal Body Parts for Simulation-Based Activities

PURPOSE: The purpose of this Simulation Program policy is to address safety, infection and disposal of meat products and animal body parts for simulation-based activities.

REVIEW: The Simulation Program OP will be reviewed September 1 of each even-numbered year by the Executive Director of the Centers.

POLICY/PROCEDURE

1.0 Policy

Due to concerns regarding safety, infection and proper disposal, only meat products and animal body parts sold for human consumption and meet FDA requirements will be used in simulation-based activities.

2.0 Procedure

A. Only meat products and animal body parts for used for human consumption will be purchased for simulation-based activities. Products for human consumption meet FDA and other federal requirements, thus ensuring the safety in terms of handling and disposal of these items in the simulation center.

B. Regarding disposal, all instrumentation used in the simulation with meat product and animal body parts must be disposed of in biohazard sharps containers through safety services/housekeeping along with the meat products and/or animal parts the day of the simulation. Any instruments used that are not disposable must be sent to be autoclaved.
